PROJECTS

Habit-Tracker

🔗 https://piyushhawq.github.io/Habit-Tracker/

- Developed a React.js Habit Tracker app with features to add and track multiple habits, toggle between statuses (Done, Not done, None) for today and previous 6 days, and display a 7-day history of each habit.
- Implemented an intuitive user interface with an "Add Habit" button for easy habit addition and a dynamic habit status view
- Empowered users to effortlessly monitor and update their daily habits, fostering a productive and organized lifestyle.
- **Tech-Stack used :- React, Redux, Tailwind CSS,Typescript**

Mini-iPod

🔗 https://piyushhawq.github.io/mini-ipod/

- Designed a React.js app featuring an interactive circular menu with options like Settings, Games, Music, and more
- Implemented seamless navigation by clicking the center button or using circular mouse movements within the menu boundary.
- Provided an intuitive user experience with the ability to access sub-menus and return to the main menu effortlessly, enhancing user interaction and accessibility.
- **Tech-Stack used :- React, Redux, Tailwind CSS,Typescrip**t

TeeRex-Store

🔗 https://piyushhawq.github.io/pcstore/

- Developed a user-friendly React.js E-Commerce app with product catalog browsing, search (by name, color, type), and filtering (by gender, color, price range, type) functionalities.
- Implemented a shopping cart system enabling the addition, quantity adjustment, and removal of items, with real-time total amount display.
- ▤ Ensured seamless navigation between screens, error handling for limited product quantities, and client-side handling of all features without external APIs.
- **Tech-Stack used :- React, Redux,CSS**

CERTIFICATES

⚛ **Certificate of Excellence in React.js**
Coding Ninjas

</> **Certificate of Excellence in Full Stack Development**

SUMMARY

I'm Piyush Chaturvedi, a Software Development Executive with a strong background in React.js and web development. My passion for teaching, coupled with technical expertise honed as a Teaching Assistant, complements my Bachelor's degree in Computer Application. My project portfolio showcases proficiency in JavaScript, React, Redux, and web technologies, supported by numerous certificates and notable problem-solving accomplishments.

EXPERIENCE

Software Development Executive

whitewular　　📅 03/2023 - Present　　📍 Delhi

🔗 https://whitewular.com/

- • Developed user-friendly **UI/UX** features using **React.js**, ensuring seamless design-to-code translation.
- • Created reusable components, optimized for diverse devices and browsers, and optimized performance.
- • Successfully integrated third-party APIs using Swagger and Postman, enhancing system reliability and data

Teaching Assistant

Coding Ninjas　　📅 12/2021 - 09/2022　　📍 Remote

🔗 https://www.codingninjas.com/

- Mentored and assisted students, resolving queries related to Web Development concepts **(HTML, CSS, JavaScript,React)** & Java concepts **(Java & Data Structure)**.
- Successfully resolved and debugged 2500+ doubts and 30+ projects for 400+ students with an average rating of 4.9/5.

SKILLS

Programming Languages and Database

JavaScript　　Java　　MySQL

Framework & Library

React　　Redux　　Bootstrap　　Tailwind CSS　　Material UI

UI/UX Design Tools

Figma　　Canva

Version Control & Development Tools

Git (GitHub, GitLab　　Postman　　VS Code　　Eclipse

EDUCATION

Bachelor in Computer Application

Mahatma Gandhi Kashi Vidyapeeth　　📅 08/2021 - 12/2021

Shree Aditya Narayan Singh Public School

Higher Secondary Education　　📅 07/2016 - 05/2018

Dehradoon Public School

Secondary Education　　📅 06/2014 - 07/2016
